Drink in the benefits

Celebrated for thousands of years, aloe vera has many known benefits and is often used to soothe minor burns or comfort and moisturise stressed skin.

Drink in the benefits of pure aloe vera with Forever's aloe vera gel drinks - **Forever Aloe Vera Gel**, **Forever Aloe Berry Nectar** and **Forever Aloe Peaches.**

Originally from the Arabian Peninsula, aloe vera has been referenced throughout ancient history for its incredible benefits. The reason this powerful plant has stood the test of time is due to the potent nature of the inner leaf gel found in its thick leaves. Aloe Barbadensis Miller, or aloe vera, is the varietal found to be most nutrient-dense and beneficial to humans, and this is the variety used by Forever Living.

One of these many nutritious compounds, acemannan, is a unique polysaccharide exclusively found in aloe vera. Acemannan is believed to be primarily responsible for many of its benefits. With such powerful effects, it's no wonder that this plant has been used for centuries!

When ingested, the aloe works from the inside out leveraging natural cleansing abilities. Aloe is also an effective digestive aid and can help support immune function and skin health. Imagine cutting open an aloe leaf and consuming the nutrient rich gel inside straight from the plant - well Forever's aloe vera products are as close to the real thing as you can get!

At our plantations, Forever hand harvests each of these precious succulents at the peak of maturity to ensure the most inner leaf gel can be extracted from each plant. Leaves are removed from the lower level of each one by hand before being carefully cleaned and hand filleted, leaving only the pure, potent inner leaf gel.
